I N T R O D U C T I O N

The Inventory of Agricultural Research, in three volumes, is an updating of statistical information compiled annually since 1966, on research conducted by the USDA, State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions. The tables of data were designed to assist persons who carry out the "joint research program planning, evaluation, and coordination" recommended in the long-range study, A National Program of Research for Agriculture, published in October 1966. Data in these three volumes are for actual scientist years and funds in Fiscal Year 1975. Fiscal Year 1975 covers the period from July 1, 1974 to June 30, 1975.

The annual inventory is compiled from input data supplied to the Current Research Information System (CRIS) by USDA research agencies on Forms AD 416, AD 417 and AD 418, and by State Agricultural Experiment Stations and other Institutions on Forms AD 416, AD 417 and AD 419. Forms used are shown on pages ix and x.

Volume I (Tables I-A and I-B) reports scientist years and amount of funds by each performing organization, by designated research Problem Areas (RPA) and Commodity subdivisions. The I-A tables give data for RPA X Commodity subdivisions; I-B tables show total research for each Research Problem Area. The 98 RPA's are listed in the Table of Contents. More complete description of RPA and the revised classification by Activity, by Commodity, Resource or Technology, and by Field of Science will be found in the Manual of Classification of Agricultural and Forestry Research, January 1973 Revision II, available from the Cooperative State Research Service, Current Research Information System, USDA.

Volume II (Tables II, III, IV) reflects national, regional, and State summaries by Commodity and by RPA. Tables III and IV provide funding data by source. Volume III (Table V) provides scientist years by Research Program (RP) and Research Program Group (RPG).

Abbreviations, Definitions and Explanations - Table I

Subtables in Table I-A are arranged numerically by RPA and by Commodity under each RPA. Under each subtable, performing organizations are grouped by regions for the State Agricultural Experiment Stations (SAES), Forestry Schools (FRSTY SCH), and Other Cooperating Institutions (OCI), with subtotals for each region and a national total for all four regions. Only those Forestry Schools receiving funds under provisions of the McIntire-Stennis Act are included in the inventory. Wherever veterinary research is part of the State Agricultural Experiment Station programs, it is included in SAES. In Universities where it is not part of the State Agricultural Experiment Station program it was not inventoried.

Performing organizations within USDA are grouped by responsible organizations or research division and agencies, with totals for each organization or division, subtotals for agencies, and a national total for USDA.

The final line of each subtable is a total for USDA, SAES, Forestry Schools, and Other Cooperating Institutions. As USDA contracts with SAES are reported by USDA as obligations (AD 416, Field 19) and by the SAES as expenditures (AD 419, Fields 204 and 219), the final-line totals have been adjusted to eliminate "double counting" of scientists and funds involved. Scientist years (SYS) and funds allotted by USDA for contracts and grants with SAES are not included in the total. The final-line total for the "SCIENTIST YEARS" and "TOTAL FUNDS" columns, therefore, is an addition of the SAES-FRSTY SCH-OCI total and the USDA total, minus the total reported by USDA agencies for contracts and grants with SAES.

Subtables in Table I-B follow the same order, with only one subtable for each RPA.

Funds shown in Tables I-A and I-B are gross figures, "Gross" means "gross expenditures including funds not allocated to projects." Funds not allocated to specific projects are prorated to all projects. For USDA, administrative costs are prorated to all projects. For most State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions, administrative costs are assigned to specific projects and appear in the Tables separately under the label "Administrative Project." Research Problem Area 001 has been designated to represent administration. Exceptions to this are Alabama, California, Delaware, Idaho, Indiana, Iowa, Kansas, Maine, Michigan, Montana, Nevada, New Jersey, North Carolina, Puerto Rico, Texas, and Vermont which have administrative costs prorated to appropriate projects by source of funds. The nature and amount of funds not allocated to projects varies among the Stations and USDA agencies. It usually includes administration, supervision, and personnel and financial services. It may include publications and statistical services, rent, operation of research farms, and other expenditures that relate to several or all projects.

Column 2, "NO OF PROJ," gives the number of projects at a performing organization for a particular classification category or combination. Projects with more than one line of classification in items 41-52 on Form AD 417 will be tabulated in more than one table with funds and scientist years adjusted according to the product percentage in column 9 of the classification line.

"SCIENTIST YEARS" column 3, includes for SAES, Forestry Schools, and Other Cooperating Institutions all research workers with a rank of Assistant Professor or above. It excludes graduate assistants and research Administrators. For staff members engaged in research and teaching (or other non-research activities), only the full-time equivalent of the portion of time devoted to research is included. A count of the different individuals engaged in the program would be greater than the scientist years reported.

For USDA agencies, scientist years include research workers whose rating is GS-11 or above. It does not include those with GS-7 or GS-9 ratings or those engaged in research administration. Scientists who start work after July 1 of the fiscal year, or whose employment is terminated before June 30 are reported for only that portion of the year which represents actual employment.

"REG FED APPR/(CSRS ADMSTRD)," column 4, means Regular Federal Appropriations (including those administered by the Cooperative State Research Service). For USDA research agencies, including CSRS in the case of Special Grants, the amounts reported are the sums of the amounts in Fields 101, 104, 105, 106 and 107 of Form AD 418 plus the amount in Field 19 of Form AD 416 for grants and contracts in the year of obligation. The second portion of this heading, "CSRS ADMSTRD," applies only to Federal Funds made available by CSRS to SAES, Forestry Schools, and Other Cooperating Institutions. For these institutions, the amounts reported are the sums of the amounts in Fields 201, 202, 205 and 206 of Form AD 419.

"TOTAL FUNDS," column 5, includes for USDA all funds under "REG FED APPR" plus "Other Federal Research Funds" as reported on Form AD 418 (excepting AID funds and PL 480 funds) plus "Non-Federal Research Funds" as reported on Form AD 418. For SAES, Forestry Schools, and Other Cooperating Institutions "TOTAL FUNDS" includes "REG FED APPR" plus "Other Federal Research Funds"(excepting AID funds) as reported on Form AD 419 plus "Non-Federal Research Funds" as reported on Form AD 419.

"USDA CON/GT/CA WITH SAES," columns 6 and 7, refer to contracts, grants, and cooperative agreements under which the USDA uses Federally appropriated funds to State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions for the performance of specific research tasks. They include CSRS "Special Grants" but not grants from other CSRS-administered funds. Scientist years and fund data reported in these columns are also included in columns 3 through 5. State Agricultural Experiment Stations, Forestry Schools, and Other Cooperating Institutions report expenditures of these funds in Fields 204 and 219 of Form AD 419. Scientist years supported by these funds are not reported separately for SAES et al. in column 6 but are included in column 3. USDA agencies treat each contract, grant, or cooperative agreement with a State station as a separate work unit or project. The amounts included in column 7 by USDA are reported in Field 19 of Form AD 416. They are reported in the fiscal year in which they were obligated. The SYS in column 6 are reported in Field 95 of Form AD 416. This field shows the expected scientist years to be "purchased," usually over a multi-year period, with the funds reported as obligated.

Totals for SAES-FRSTY-OCI and USDA, the final line for each subtable ("NAT TOT USDA-SAES-ETC"), have been adjusted to eliminate double counting of SYS and funds involved in USDA contracts and grants with SAES, Forestry Schools, and Other Cooperating Institutions. See earlier reference in paragraph 3 under Abbreviations, Definitions and Explanations.
